Hi David, I have not had a chance to introduce myself, I will be taking over for Linda on this project. I have been trying to come up to speed with the volumes of documents related to the project and start to make some sense of things. I have reviewed your recent report and I am ready to have a call with you. I was actually planning to reach out today and figure out a time that could work for us to talk. Are you available this afternoon or tomorrow? Jan will be serving as my mentor, it looks like she will have availability this afternoon but not tomorrow.

Hi Jan and Heather,

Please see the email below from Susan Hanson (Shoshone-Bannock Tribes) and David Weeks, who has been working on the FMC Pocatello Task Order for the past 6 months or so.

Please advise on if/how you would like David to respond. David submitted a draft version of the Technical Memo regarding the effectiveness of the current gas monitoring scheme, including gas generation and release mechanisms to Linda. (Submitted recently, but I'm not sure when this was delivered to her – I have asked David for more information.)

Thanks,  
Libby

Hi Elizabeth:

See email below. Do you guys want me to respond? You may want to let EPA know about this email. I will not respond unless I hear from you guys.

Hi David,

We met back in December at Fort Hall regarding the FMC site. Wondering if you have completed the work or could provide any information on target numbers for phosphine - what would trigger gas extraction. Linda Meyer switched programs and we haven't heard anything.

Thanks in advance

Susan Hanson

Hi, this is Dave. I will be in Burly in the am. Linda mentioned sometime after noon. What about around 2:30 or 3:00 at the shoshone-babcock hotel?

Susan/Kelly – I get to Pocatello tomorrow (Tuesday) at noon. It sounds like you are both busy on Wednesday afternoon. Would Tuesday afternoon or Thursday morning work to get together? Dave and I are staying at the Shoshone Bannock Hotel, we could meet there. Please respond to all and I will check my messages when I get in tomorrow (12:30). Thanks!
